

PROTECT[®] YOUR GAME

Not all game time decisions are made on the field. KNOW THE IMPACT.

PHYSICAL IMPACTS OF ALCOHOL USE:

- Weekly alcohol use doubles the rate of injury
- Interferes with metabolism
- Slows recovery
- Interrupts sleep
- Reduces endurance

PHYSICAL IMPACTS OF NICOTINE USE:

- Makes an athlete weaker and more prone to injury
- Slows recovery
- Reduces endurance
- Damages the heart and lungs
- Negatively affects blood and breathing functions

NEUROLOGICAL IMPACTS OF MARIJUANA/THC USE:

- Dulls reaction time
- Reduces hand/eye coordination
- Impairs facial recognition
- Reduces balance & tracking ability
- Reduces memory recall & impact of all training
